MEET CAROLYNN

Carolynn Bottino is an international bestselling author, speaker, and founder of the Money Empowerment Project. Her book *The Land of Plenty: A Soulpreneur's Guide to Finding Joy, Possibility and Abundance through Money Empowerment* has been featured on the Spirited Woman's Top 12 book pick list for 2020.

In 2013, Carolyn abruptly left the corporate events world and never looked back. She started All The Details Consulting providing event planning and bookkeeping services to small businesses. After working with more than 100 bookkeeping clients, Carolyn realized that she was much more than just a bookkeeper and discovered her soul's calling to empower women soulpreneurs to find joy in their relationship with money.

Thinking that events would be her mainstay, and bookkeeping would be her side-gig, she soon discovered a huge need not only for bookkeeping, but for the need for business owners to understand their money on both a practical and soul level. And so the Money Empowerment Project was born in 2017 to inspire women to rise up and embrace their money power. She retired the events side of her business in 2020 to focus full time on her multiple six-figure bookkeeping business and empowering women soulpreneurs around the globe.

Carolynn is a truth guide for money. She walks her talk and serves as an example of how to live in The Land of Plenty, leading with her soul, and using her intuition to guide her business decisions. She loves to inspire others to find joy, possibility, and abundance in their lives and businesses.

Carolynn continues to follow her dreams and now lives in sunny San Diego with her husband and two cats. Her happy place is anywhere near water and she believes she was a mermaid in a past life.
